## Bigpipe Planned Network Maintenance July 6 — July 21

**WHAT:** Scheduled maintenance is taking place on the Bigpipe network between July 6 and July 21, to allow Chorus to implement software upgrades.

**WHO:** Approximately 1000 customers will be affected in a variety of locations throughout New Zealand.

IMPACT: Minor impact. Most customers will not notice the service interruption. If your connection is affected, it will be interrupted for up to 30 minutes between 1 and 6 AM. Your connection should come back up automatically. If your connection doesn't come back automatically, please restart your router (and your ONT, if you're a fibre customer.)

We do not expect any ongoing network difficulties or outages from this scheduled maintenance, but if any arise, we will update our <a href="Network Status">Network Status</a> page accordingly.

If connection difficulties persist, please visit visit <a href="mailto:bigpipe.co.nz/support-centre">bigpipe.co.nz/support-centre</a> and log a support ticket.

Some customers may experience lower speeds for a limited time after the scheduled maintenance. This shouldn't last long. If your connection is still slower than normal 24 hours after the scheduled maintenance, please check out our <u>Big Guide To Improving Your Broadband</u> or visit <u>bigpipe.co.nz/supportcentre</u>.
